LA DULCE TRADICIÓN DE MÉXICO

Katrine
dulcec

The logo features the word 'Katrine' in a large, white, elegant cursive font. Below it, the word 'dulcec' is written in a smaller, white, lowercase cursive font. The text is surrounded by decorative elements: orange and yellow swooshes, and teal and yellow teardrop shapes. The background is a dark purple gradient with curved lines.

Why is it healthier for the whole family?

Besides the exquisite flavor of our Milk Caramel, it is healthier than other options in the market. The base with which it is sweetened is agave honey syrup. Agave honey is a sweetener obtained through the evaporation of aguamiel, that is, the sap contained in the agave, a plant used to make tequila, the popular Mexican beverage.

It is a low-calorie organic sweetener, lowers cholesterol and triglyceride levels, improves the metabolization of toxins in the body, inhibits the growth of pathogenic bacteria, contains vitamins A, B, B2, C, iron, phosphorus, proteins and niacin, which allow cleansing, draining and detoxifying veins and arteries.

Agave honey has a lower glycemic index than other sweeteners (15-20, compared to 100 for glucose, 75 for sugar or 78 for honey). In addition, it contains 70% fructose, which is the main sugar found naturally in vegetables and fruits. It sweetens 15 times more than normal sugar, that is to say, with less quantity we sweeten in an exquisite and healthy way. Therefore, it is widely recommended in the diet of people who want a healthy lifestyle, who can enjoy the taste without worries.
